RE: Permit-By-Rule Authorization – Transfer of Ownership
Atomic Resource Recovery Processing Facility – SWP 75-1435

Dear Mr. Lewis:

This letter will serve as official notice that this Division has received and approved your Permit-By-Rule notification for change of ownership for the referenced facility's operation, located in Rutherford County at 151 Bain Street, LaVergne, Tennessee (latitude 36°00.261' N/ longitude 86°35.377' W), for processing of construction and demolition waste. The new permittee of record will be Atomic Resource Recovery, LLC.

This facility shall be deemed to have a Permit-by-Rule, provided the criteria of Rule 0400-11-01-.02(1)(c)(1)(i) of Tennessee's Solid Waste Processing and Disposal Regulations are met, including the Permit-by-Rule Conditions as submitted by you on October 8, 2013. The registration number for this facility is SWP 75-1435. This number should be used on all reports and correspondence to the Department or Division regarding this facility.

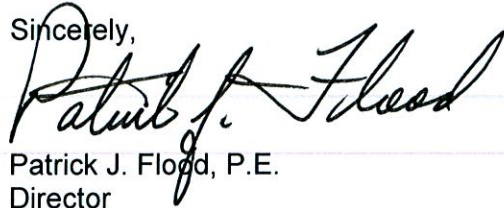

Financial Assurance is required for this facility in the amount of \$27,664.00, which is the current amount the previous owner has filed with the Department. This amount is based upon the estimated cost of contracting with a third party to clean up the maximum volume of solid waste onsite by transporting it to a disposal site and paying disposal costs, in the event the permittee cannot continue the operation.

In accordance with Tennessee Code Annotated (TCA) Section 68-211-116(a), please provide to the Commissioner an instrument that will satisfy the estimated total closure cost of \$27,664 upon receipt of this letter. This permit will not be valid until this instrument is received. It should be noted that the required amount may be adjusted in the event the maximum storage capacity changes.

Mr. Lewis
